More Variation of Patterns

In this beautiful Stephen Foster tune, we again mix several finger-pick patterns to bring out the beauty of the melody. This song should be played slowly and with a lot of expression. Try slightly varying your speed and volume as you play through the piece.

Playing A Melody

In this first song, your left hand will only be fretting on the melody string. Again, start slowly until you can play it evenly in speed and volume. This piece uses the fingerpick pattern #1 from the exercises at the beginning of this book.
