FINGERS OF STEEL® PUBLICATIONS

Fret Position Reference Guide For Ukulele, Guitar, Banjo, Mandolin, And Other Chromatic Fretted Instruments

by Richard Ash

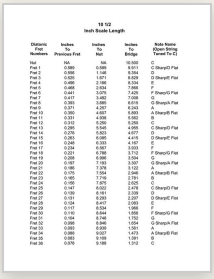

Richard Ash's Fret Position Reference Guide For Ukulele, Guitar, Banjo, Mandolin, And Other Chromatic Fretted Instruments solves one of the trickiest parts of building a fretted instrument: where the frets go.

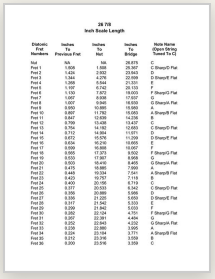

Detailed fret placement charts cover every scale length from 8 to 32 inches, in eighth-inch steps, so you can lay out an accurate fingerboard for your next guitar, ukulele or other string instrument.

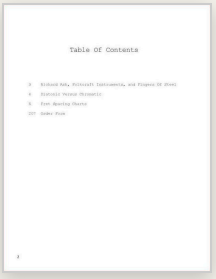

It's not a book to read cover to cover, but one to keep in the shop and use again and again. The compiler, Richard Ash, is the owner and a luthier at Folkcraft Instruments.
