Dulcimer Joy: Exercises For Developing Right Hand Facility And Comfort

by Steve Eulberg

Steve Eulberg's Dulcimer Joy is a mountain dulcimer exercise book for your picking hand. All 30 exercises are built on one familiar melody, Beethoven's "Ode To Joy," in DAD tuning, and they aim to make your right hand comfortable and dependable.

Steve teaches from a "home position" that develops accurate, confident fingerpicking, and flatpickers can use every exercise too. A recording of each exercise lets you check how it should sound.

47 pages, CD included.
